## BRITISH NOW COUNTER ATTACKING AT IMPORTANT POINTS GERMAN LOSSES PLACED AT HUNDRED THOUSAND DAILY

### THE GREAT GERMAN DRIVE

Furious bombardment of the British front in France, over a distance of fifty miles, marked the beginning of the great Spring drive of the Germans. The Kaiser's infantry was reported to have penetrated General Haig's positions at Lagnicourt (A) and Louverval (B), on the Bapaume-Cambrai road; at Gueudecourt (C) and St. Quentin Ridge (D). The inset map indicates the region comprised in the drive (1) in comparison with the entire front. Activity also was reported on the Aisne (2) and at Verdun (3). An idea of the magnitude of the attack may be had from the report that, in one sector of the front, German infantry attacked on a width of sixteen miles, with Bapaume as the immediate objective.

### U. S. SHIP TORPEDOED

(Associated Press Cable)  
London, March 25.—The Admiralty announces that the American steamer *Chat-tahoochee*, 5088 tons net, has been sunk by a German submarine off the English coast. Her crew of 78 was landed safely.

The master states the submarine fired a number of torpedoes of which four struck the vessel.

The steamship was formerly the Hamburg-American liner *Sachsen* and was one of the vessels seized by the United States when this country entered the war.

### WARNING IS GIVEN CAIRO

(Associated Press Cable)  
London, March 25.—The inhabitants of Cairo, Egypt, were informed official-

ly last Thursday, according to a Reuters dispatch that a possible enemy airship had been observed over the coast. The public was warned of the possibility of air raids and ordered to observe the necessary regulations.

Cairo is the capital and most populous city in Egypt. The Turkish line in Palestine are the nearest enemy point to Cairo and they are 320 miles northeast.

An enemy airship might also come across the Mediterranean sea from the northern coast of Asia minor. The distance by that route would be 460 miles.

### GUNS SHELL TEUTON LINE

Enemy Batteries Reply, Using Gas Shells.

(Associated Press Cable)  
With the American Army in France, March 25.—On the Toul Front there was considerable artillery activity during the night. Americans heavily shelled the German front line positions. Enemy batteries replied using gas shells. Later photos were taken of the damage inflicted by the Americans.

LOSSES OF ALLIED FORCES ARE DECLARED BY EXPERT OBSERVERS AS BEING MUCH LESS THAN THOSE SUSTAINED BY THE GERMANS.

NORTH OF BAPAUME THE ENEMY ATTACKED THIS MORNING IN GREAT FORCE, USING THE MASSED INFANTRY FORM OF ATTACK.

IN MANY INSTANCES INFANTRY COLUMNS FAIL TO PASS THROUGH BRITISH BARRAGE

GERMAN COMMANDERS IN BRUTAL DISREGARD OF LIFE FREQUENTLY LAUNCH THE MASSED INFANTRY ATTACKS WITHOUT ASSISTANCE OF ARTILLERY FIRE.

London, March 25.—(Associated Press Cable)—The British this morning were counter-attacking between Nesle and Ham, Reuters' correspondent at British headquarters reports. The French also were in action.

North of Bapaume he states the Germans were attacking in considerable force at dawn, but did not get through the British barrage. The Germans, says the correspondent, are relying upon sheer weight of numbers in their heavy attacks on the British lines, relieving their tired troops by fresh divisions which press forward without waiting for artillery support.

### AMERICAN ENGINEERS IN ACTION ACQUIT THEMSELVES WITH HIGH HONORS

British Army Headquarters in France, March 25.—(Associated Press Cable)—American engineers again have been in the throes of fierce conflict in which they have done excellent work in transportation.

The presence of the American engineers on the battle front has long been known. They were praised highly for their gallantry in the battle of Cambrai.

German cavalry in small numbers has been in action, but thus far it has been used merely to harass the British during their withdrawal.

### ATTACKERS ARE "DOG WEARY"

There seems small doubt but that the German attacking troops are dog-weary, fighting under great strain. But this is mentioned merely as an interesting sidelight and not for the purpose of sounding a note of optimism. Harder fighting than has yet occurred will probably follow.

The British have been fighting with traditional stubbornness and at many points have hurled the Germans back time after time, although themselves greatly outnumbered.

Throughout the night there was serious fighting north of Bapaume along the Bapaume-Arras road, but except that Mory again changed hands, the defenders held their own gallantly.

London, March 25.—(Associated Press Cable)—Fresh attacks by the Germans have developed northward and southward of Bapaume, the war office announces.

The British repulsed powerful attacks yesterday afternoon north of Bapaume.

### CLAIM CAPTURE OF BAPAUME

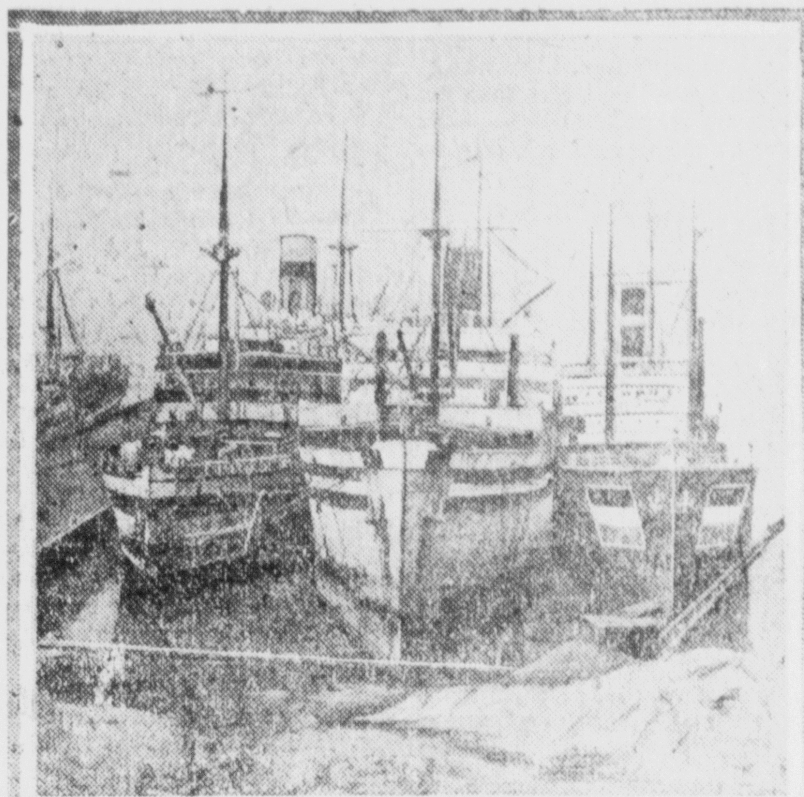

Berlin, March 25.—(By British Admiralty Press)—The Germans are now standing to the north of the Somme in the middle of the former Somme battle field, says today's official German statement. Bapaume was captured in night fighting.

In the evening Nesle was taken by storm, the statement adds. British, American and French were thrown back through a pathless wooded country. More than 45,000 men and more than 600 guns have been captured, the statement says. Guscard and Chauny were captured in the evening.

Violent fighting for possession of Combles and the heights west of the town. The enemy was defeated, the statement says.

Bapaume is on the northern part of the battle front, where the British lines for the most part has been held. It is one of the larger towns on the fighting front. The official German statement of Sunday night said a gigantic struggle was taking place in the town. It is 13 miles from Arras.

### THREE OF DUTCH SHIPS TAKEN OVER BY U. S.

DUTCH SHIPS TAKEN OVER BY U. S.

The United States Government has taken over the Dutch ships in American ports, forty-six Dutch shipwrecks seized in New York Harbor, which add a total tonnage of 350,000 to the shipping of the United States. Dispatches from the Hague report that a local news agency says that Germany considers her relations with Holland altered by the attitude of the Dutch Government toward the Entente and the United States. The agency also publishes a report that the abandonment by the Dutch Government of the remaining restrictive clauses in its shipping loan terms would be regarded by Germany as a cause for war. The photo shows three Dutch vessels at their pier in New York Harbor.

### COL. M'ARTHUR IS WOUNDED

Washington, March 25.—(Associated Press Dispatch)—General Pershing's casualty list today contains thirteen names. One died of wounds, three of disease, one from causes unknown, one man severely wounded and seven slightly wounded.

Colonel Douglas McArthur, chief of staff of the Rain-bow Division, was severely wounded.

Colonel McArthur formerly was the War Department censor here and recently was decorated.

### GERMANS LOSE 100,000 DAILY

Washington, March 25.—(Associated Press Dispatch)—Members of allied military missions here said today that in the nature of the fighting on the west front the Germans must be losing at least 100,000 men daily. They made this deduction from the German plan of massed attack, the number of troops they are employing and the strength of the allied resistance.

The allied losses would be far less than those of the Germans, because they are fighting on the defensive, they said.

The British drove back to the eastern bank of the Somme bodies of German troops which had crossed the river between Licourt and Brie, south of Perrone.

PARIS, March 25.—(Associated Press Cable)—The French on Saturday went to the assistance of the British and took over a sector of the battlefield, the war office announces. In the region of Noyon and on the right bank of the Oise heavy fighting with the Germans is in progress.

British Army Headquarters in France, March 25.—(Associated Press Cable)—A further advance late yesterday by the Germans at some points along the front is recorded.

### PRESIDENT CONGRATULATES HAIG

Washington, March 25.—(Associated Press Dispatch)—President Wilson today cabled Field Marshal Haig congratulating him on the British stand against the German offensive and predicting a final allied victory.

### IRON CROSS FOR HINDENBURG

AMSTERDAM, March 25.—(Associated Press Cable)—Emperor William, at German main headquarters on Sunday according to an official announcement at Berlin, conferred the "iron cross with gold rays" on Field Marshal Von Hindenburg, and the grand cross of the order of the iron cross on General Von Ludendorff.

The emperor also gave various decorations to departmental chiefs along with a signed photograph with the date of the battle, March 21st to 23rd.

### BIG GUN IS SILENT

Long Range Bombardment of French Capital Ends After Several Shots This Morning.

(Associated Press Cable)

Paris, March 25.—The long range bombardment of Paris was resumed at 6:30 o'clock this morning but was interrupted after the second shot.

After a brief interval two more shots were fired. The bombardment again was suspended at 9:10.

As was the case yesterday the people did not take to shelter. Cellars, filled on Saturday, remained empty this morning. Little interest was shown in the bombardment.

### AMAZING

(Associated Press Cable)

Paris, March 25.—Twenty-four shells reached Paris on Saturday and 27 yesterday. The interval between shots was reduced from 15 to 20 minutes on Saturday to an average of nine minutes yesterday.

On two occasions there was an interval of only one or two minutes. This was accepted as confirming the claim that at least two guns were firing.

The time of flight of the shells is estimated at 10 minutes at the least, the curve traversed at 120 miles, and the maximum height attained at 15 miles.

### AMERICAN HIT

An American corporal of marines was struck in the chest by a splinter of one of the first shells which fell during Saturday. He was wounded seriously but his life probably was saved by the deflection of the splinter by a cigaret case.

### SECRETARY BAKER MEETS THE KING

(By Associated Press Cable)

London, March 25.—Secretary Baker was presented to King George at Buckingham Palace, today, by Ambassador Page. The Secretary remained for an hour with the King, discussing America's efforts in Europe.

### REFUSE GRAIN

(By Associated Press Cable)

London, March 25.—The Dutch cabinet is said to have decided Sunday to send the allied powers a formal refusal of their offer of grain in return for Dutch ships, a dispatch from The Hague says.

### WILL BE NO CHANGE

By Associated Press Dispatch.  
Washington, March 25.—Holland's decision to refuse grain supplies offered by the United States in return for Dutch ships just taken over will not cause the American or British governments, it was declared here today, to change the plan of action agreed upon.

# BRITISH OFFICER DELIVERS ADDRESS SUNDAY AFTERNOON

Sharpshooter Instructor at Camp Sherman Tells of Service in Trenches on the Somme—Declares Troops at Camp Sherman Eager to Go.

Lieut. Messimore, of the British Army who saw one and a half years active service on the Somme and has been stationed at Camp Sherman since last November drilling and instructing snipers.

He spoke for one and a half hours at Masonic Hall Sunday afternoon to an audience of two hundred, on life in the trenches. The Sniping Lieutenant is a soldier of splendid appearance and if he is an average sample of the British Tommy it is not surprising that Germany fears England more than any other nation. He has no pretension at oratory, but told his story in a plain unpretentious manner that impressed his auditors more than the fancy flight of the orator.

He said that sniping was a part of the German war machine from the first of the war. Then a Tommy dare not show his head above the trench line. But since the Allies have organized their best marksmen as snipers, the Germans keep their heads below the danger line. The sniper or sharpshooters take a position somewhere behind the trenches where they can screen themselves and have a view of the German trench, where if anything is seen to move a bullet is sent to the spot. They also have loop holes surrounded by steel plates at the top of trench.

He stated that when the enemy commences one of his intensive bombardments of a trench to be followed by a drive the men in the trench fall back to the next line, after the shelling the trench is entirely obliterated and when taken by the German infantry, affords but little protection until they can dig in. Then is when the snipers get in their best work as they have taken positions that command the situation.

He said the German was a fine soldier and could be depended upon except where the bayonet was used. If an equal number of British charge a German trench and come to close quarters the German will throw up their hands and say "Kamerad" which he said was the only German word he understood.

The German has a system in everything he does that never varies, of which the British are quick to take advantage. Among several instances he gave two German characteristics. There were two towns near their sector which the Germans bombarded every Monday, Wednesday and Friday, and there was never a shell thrown on any other day.

About a year ago when the German army fell back to the Hindenberg line, everything was destroyed. The trees which line all the French roads were all cut and thrown across the roadway. A force was sent forward to clear the roads, when they commenced to move the trees there was an explosion under one, the Tommies knew that these explosions like every thing else they did had been placed in a systematic way. It was finally worked out the explosive was under every tenth tree, this extended over the whole line of the German retreat.

He said he never saw a finer body of men than those at Camp Sherman and they are all anxious to learn their duties, and want to go to France soon as possible.

# SPECIAL MEETINGS ARE WELL ATTENDED

**PRESBYTERIAN CHURCH**  
Dr. George P. Horst, of the Second Presbyterian Church of Portsmouth, closed a week of preaching at the First Presbyterian Church Sunday with two beautiful sermons.

The morning sermon, "The Crucifixion," presented a deeply impressive picture of the trial and death on the cross of the Savior and was a fitting prelude to "Holy Week." A full choir sang "The Palms"—Faure, superbly. Misses Woodward and Kibler taking the duet.

At the evening service the theme "The Song of the Lark" gave Dr. Horst opportunity for a beautiful exposition of the twenty-third psalm.

Miss Roberta Stokesbury sang a vocal solo and there were organ and cornet solos by Mrs. Davis and Mr. Harvey.

Dr. Horst has contributed much of uplift in his week's work and regret attends the departure of this brilliant young minister.

This week there will be services each night, with a different preacher in the pulpit. Tonight Dr. Brittan, of the Central Church, Columbus, preaches.

**METHODIST EPISCOPAL**  
Yesterday morning District Superintendent, Rev. J. C. Jackson, D. D., of Chillicothe preached a "Palm Sunday" sermon. The pastor's theme at the evening service was "The Gates are Open" presenting the fine opportunity for non-Christians to come in to the Christian life and of Christians to go forward into a still higher life.

Tonight Dr. Jackson will preach at 7:30 o'clock and the Quarterly Conference will be held at 8:30 o'clock. The men in the Men's Sunday School Class voted yesterday to attend in a body tonight, assembling in the Epworth League parlor preceding the service.

It is desired that all members—old and young—be present through this last week of these Pre-Easter services.

On Wednesday evening the service will be especially fitted to the boys and girls under High School age. On Thursday evening the service will be especially fitted to young people of High School age and above. On Friday the sacred sacrament of the Lord's Supper will be observed.

The Easter Sunrise Service next Sunday conducted by the Epworth League will begin at 6:30 o'clock new time (5:30 o'clock present time).

Each Methodist group is asked to co-operate by having one more, one hour meeting this week—30 minutes for prayer and 30 minutes for conference and planning) on either Tuesday or Wednesday or Thursday, the time and place to be announced by each group chairman.

**BAPTIST CHURCH**  
A good deal of interest developed yesterday in the special Pre-Easter services in progress at the First Baptist Church. Fine audiences were in attendance. One was received into membership at the morning service. Others signified their intention of uniting with the church.

Besides the special music by the large chorus choir in the evening, the duet by Mrs. John Browning and J. Howard Hicks was greatly enjoyed, and proved very helpful to the service.

There will be services with special features every night this week except Saturday beginning at 7:30 with a song service as follows: Monday, Young People's night, headed by the B. Y. P. U. Subject of sermon, "The Call to the Heights."

Tuesday, Women's night, with sermon by Rev. W. Leo Brown, pastor

# ABSURD RUMORS ARE SET AFLOAT

As usual during some great event in which there is deep interest on the part of all citizens in general, a host of absurd rumors have been set afloat. This is the case in connection with the present battles raging in France.

One way to aid in squelching these rumors is not to be a party to their circulation.

One of the reports in circulation as early as Saturday was that the Fayette county troops had been in the battle.

There has been no such press report or other indication that Fayette county troops are within less than 200 miles of the nearest part of the battle around St. Quentin.

Don't be alarmed by rumors. The Associated Press can be relied upon for correct information.

of the First Baptist Church of Greenfield. The three Missionary Societies will be present.

Wednesday, Men's night, special sermon to men by the pastor. There will be singing by a male quartette.

Thursday will be Sunday School night, with music by a large chorus of boys. It will be decision night for the Sunday School.

On Friday night the Sugar Creek Baptist Church will attend in a body. Each night the organizations will sit in seats reserved for them.

It is the intention to make this a week of earnest endeavor to strengthen Christian faith and to win souls to Christ. The public is prayerfully and cordially invited to every meeting.

## DEATHS

Crabtree

Isaac Crabtree, 66, died Sunday morning at two o'clock at the residence of Mrs. Henry Davis, on Willard street.

Funeral services were conducted on Monday afternoon at 3:30 o'clock and interment was made in the Washington cemetery.

Haithecock

Charles R. Haithecock, 18, son of Elijah Haithecock, died Sunday morning at 6:19 o'clock, at the family residence on Gregg street.

Funeral services Tuesday afternoon at two o'clock at the Second Baptist church, and burial in the Bloomingburg cemetery.

## HERALD EXTRA

The two extra editions of the Herald, one issued at 11:30 a. m., and the second at 4:00 p. m., Sunday, met a tremendous demand for the latest information concerning the great battle raging in France, and the German monster gun's bombardment of Paris.

The first edition was speedily exhausted, and the second edition, with twice as many papers as the first, also was completely exhausted within a short time after the editions were off the press.

Nearby towns sent automobiles to this city and obtained large numbers of the last edition and in each instance the supply obtained was either entirely sold out in advance, or melted away within five minutes after the papers reached the towns.

The enterprise of The Herald was widely commended and the extras were all the more popular because no extra editions of the big city papers were issued on Sunday.

## The Time Has Come

The fourth day of the greatest battle of all time has come to an end. Darkness has, for hours now, enveloped that awful field of carnage in northern France.

The fighting has been conducted on such a tremendous scale, so many hundreds of thousands of men have been engaged, so many thousands of monster guns have been hurling their avalanches of steel and iron, so many scores of thousands of human beings have perished, events, heretofore believed impossible, have happened with such rapidity that it is not only impossible for trained men at the front to furnish anything like a comprehensive description of it all, but it is impossible for the human mind, either at the front or anywhere else, to comprehend the immensity of the awful struggle.

There is no longer any doubt that the Germans have launched the most colossal, the most terrible attack ever known in war. They have massed for this, the supreme and gigantic effort of autocracy, every man and every gun, every shot and every shell possible to obtain, have summoned to their aid every devilish weapon and resorted to every horrible device of which the mind of the trained barbarian can conceive.

It is indeed the final effort of barbarism against civilization, of might against right, of slavery against freedom, it is the great convulsion of humanity.

Never since the Creator in the beginning said: "Let there be light" have the fiends of darkness made such a stupendous attack to regain supremacy over the earth.

Freed from the fear of Russia in the east, the Germans have dropped their mask of peace and are exhibiting to the world the hideous face of the monster of might and darkness.

So fearful has been the carnage that even men skilled in war do not even hazard an estimate of the number of slain, but that it reaches a staggering total, far exceeding that recorded in any other struggle in the history of the world, is conceded by all who have followed the necessarily meagre and fragmentary reports.

Never before, not even excepting the violation of Belgium, has the Teutonic purpose to rule by force been more apparent than now. All pretense, all excuse for precipitating the awful conflict has been cast aside and the determination to conquer the world by force boldly and brazenly announced by word and deed. Arrogantly confident of their ability to crush the forces of civilization the Kaiser and his war lords have taken up their positions to witness the end of those higher and nobler ideals for which men have striven through all the ages.

Confident that the little "army of contemptibles" driven back through Belgium and France in the earlier months of the war and which has now grown to an army of millions of freemen from every land on earth where liberty reigns, will be able to check the forces of might the world awaits the beginning of another day of carnage and bloodshed.

We must face the facts—we must not be pessimistic and gloomy, neither must we expect too much.

Reverses in the initial stages, of what must be a long and deadly conflict, must be expected, or at least accepted, uncomplainingly. We must not expect victory in such a struggle to come without its heavy losses. We must not be discouraged with a few miles lost or allow ourselves to think the struggle won by a few successes.

This crucial battle has brought the war home to Americans as nothing else has done. The patriotism of the nation is fired. The menace is clear now to those who could not see before. From this time on there will be less leniency shown those who are not in sympathy with humanity in its struggle.

Men who are not in sympathy with that army in France, men who can justify Germany's part, now that the mask is dropped, men who refuse or neglect to do their share, are no longer to be permitted to aid the cause of the Kaiser while enjoying the blessings of liberty.

The time has come when there must be no trifling, when every man must take his place in the ranks. America has been patient, America has been lenient, but America, in lives lost, in property destroyed, has learned her lesson and America, bowed in sorrow at the bier of those brave thousands, who have died in France in the effort to check the monster, America with her ideals, with the God given freedom for which our fathers fought and died that men might be free, America on the edge of the precipice, has consecrated her life anew to the cause of liberty, and an awakened and armed America has taken a vow that there shall be no traitorous conduct behind the lines which her sons and the sons of Britain and France are now struggling to hold against the attacks of the monster of militarism.

## Poetry For Today

**CHILDHOOD DREAMS**  
 I stood enraptured when a child,  
 And gazed upon the sun,  
 Whose dazzling light came streaming  
 down,  
 Like threads by spiders spun.

How wonderful was all this scene!  
 The great and boundless sky  
 Was full of little fleecy clouds  
 That went floating by.

The brown thrush warbled in the  
 boughs;  
 My heart was full of glee,  
 When robin red-breast twittered o'er  
 His notes of joy to me.

The buttercup and violet,  
 Would peep from out the grass;  
 And when I wandered thro' the fields,  
 Sainte me as I'd pass.

The stars at night; Oh, how they  
 shone—  
 Like diamonds in a crown!  
 I reached up with my eager hands,  
 And tried to pull them down.

The babbling brook went winding by,  
 and sometimes stopped to play;  
 Just like the golden dream that's  
 gone—  
 It seems but yesterday.

Oh, world of grandeur—world of  
 thought,  
 Swing back your portals wide,  
 And let me drift where childhood  
 reigns  
 When I embark the tide.

Your fame is naught—your gold as  
 brass;  
 Your pleasures are vain schemes;  
 And manhood is an empty thing  
 Compared with childhood dreams.

## MAKE EVERY SQUARE INCH WORK

Make every square inch of your yard and garden work this year. Never mind the flowers. A border of onions is just as artistic as a border of forget-me-nots and a heap more fillin'. You can find plenty of little waste spaces from which the return will surprise you when it's harvested. That tulip bed planted to lettuce or peas would look rather nifty wouldn't it? Try it this year and watch your neighbors do the same. Every idle inch of ground is waste; make it work and surprise yourself in the yield you get from it.

## WILD RUMORS ARE IN CIRCULATION

By Associated Press Dispatch.

Columbus, O., March 25.—Wild rumors were circulated over Ohio last night and today to the effect that the German Crown Prince and 200,000 German troops had been captured by the British.

No report to this effect has been received from the western front in any of the official or press dispatches.

However the rumor evidently was generally believed for in one Ohio town a parade was formed last night, the marchers carrying red lights to

## FAYETTE FAIR CO. COMES TO RESCUE WITH SEED CORN

600 to 800 Bushels of Government Tested Seed Corn from Pennsylvania on Way to This City to be Distributed at Actual Cost.

Within a few days a carload of government tested seed corn from the well known Chester and Lancaster counties, in Pennsylvania, will be available to the farmers of Fayette county at actual cost—approximately \$5 per bushel, being distributed from the McDonald elevator, under the auspices of The Fayette County Fair Company, members of which have acted promptly in making it possible to obtain the corn.

The matter was taken up direct with Walter McCoy, County Agent of Clark county, who is now in the government service assisting in the work of locating and testing corn for seed, and the following telegram was received from him:

"Can get car of corn cost not to exceed \$5 per bushel, provided from local source. Can send sight draft for car and distribute at cost."

Upon the receipt of this telegram, sent from York, Pa., arrangements were made for sending the draft covering the cost of the car so that it could be shipped at once and distributed under the auspices of the Fayette County Fair Company at cost, from the McDonald elevator.

The government is shipping large quantities of the corn from the York community in Pennsylvania, for use as seed in other states where there is little change in latitude or climatic conditions, and it is declared that the Pennsylvania corn does splendidly in this state.

Some sixty carloads of seed corn have been promised Ohio from the Pennsylvania corn-growing belt, and this is now being purchased by government agents after proper tests are made.

The farmers of Fayette county who have not yet obtained their corn for seed will welcome the prompt work of these men of obtaining the supply of seed, and who obtain not a cent for their trouble, but use their own money in making the original purchase of the corn so that it may be brought to Fayette county.

There will be 600 to 800 bushels of the corn. Notice will be given upon its arrival.

## WHEN TO TURN CLOCK FORWARD

In accordance with the new law which provides that all clocks and watches be turned forward one hour on Saturday night, March 30th, arrangements have been made in this city for turning clocks and watches forward at eight o'clock.

Immediately after the stroke of eight o'clock next Saturday night the town clock will be turned forward one hour, and this will be the signal for all clocks and watches to be turned forward.

Beginning with the time the change goes into effect, The Herald, whenever the time of day is referred to in an article or announcement, will carry the new time and not the old.

Every clock and watch in the city and county should be turned forward at eight o'clock next Saturday night and thus comply with the new "daylight saving" law recently passed.

## BAD BREATH

**Dr. Edwards' Olive Tablets Get**  
**at the Cause and Remove It**

Dr. Edwards' Olive Tablets, the substi-  
tute for calomel, act gently on the bowels  
and positively do the work.

People afflicted with bad breath find  
quick relief through Dr. Edwards' Olive  
Tablets. The pleasant, sugar-  
coated tablets are taken for bad breath  
by all who know them.

Dr. Edwards' Olive Tablets act gently  
but firmly on the bowels and liver,  
stimulating them to natural action,  
clearing the blood and gently purifying  
the entire system. They do that which  
dangerous calomel does without any  
of the bad after effects.

All the benefits of nasty, sickening,  
gripping cathartics are derived from Dr.  
Edwards' Olive Tablets without griping,  
pain or any disagreeable effects.

Dr. F. M. Edwards discovered the  
formula after seventeen years of prac-  
tice among patients afflicted with  
bowel and liver complaint, with the  
attendant bad breath.

Dr. Edwards' Olive Tablets are purely  
a vegetable compound mixed with olive  
oil; you will know them by their olive  
color. Take one or two every night for  
a week and note the effect. 10c and 25c

## T. C. GOOLEY HOME IN NEW HOLLAND IS BADLY DAMAGED

Fire which is thought to have ori-  
ginated from a new grate, or as result  
of short circuit in the electric wiring  
seriously damaged the large and  
handsome home of T. C. Gooley, in  
New Holland, Sunday midnight and  
required hard work on the part of  
the fire fighters to save the residence  
from complete destruction.

The Gooley residence—one of the  
most attractive in New Holland—is  
located at the side of the M. E.  
Church. A fire had been kindled in  
a grate, the second time the grate  
had ever been used. But whether the  
fire started from the grate or short  
circuit wires is not known, as the  
first intimation of the fire came at  
midnight when Miss Garnet Gooley  
was aroused by dense smoke in her  
room, and she rushed through the  
smoke in her room, and flame filled  
hallway to the room occupied by her  
parents and spread the alarm.

The family escaped without mishap  
the hall and stairway being nearly  
cut off by the flames at that time.

Within a short time the chemical  
engine was on the scene and the  
townspeople responded nobly, render-  
ing all assistance possible, but not  
being able to extinguish the flames  
until much of the interior of the  
home had been badly damaged by fire  
and water. Virtually all household  
effects on the first floor were remov-  
ed.

The loss is partly covered by in-  
surance. It is only one of a number  
of times that Mr. Gooley has suffer-  
ed loss by fire, his place of business  
having been in the fire zone in two  
or three disastrous conflagrations.

## FLEET OF CANOES LEAVE ON TRIP

The fleet of canoes in command of  
"Admiral" Hays, Secretary of the Y.  
M. C. A. left at 6:00 o'clock this  
morning for a trip to Portsmouth via  
Paint Creek and the Scioto river.

The trip started at the covered  
bridge on the Chillicothe pike, with  
the boys in high spirits and confident  
of their ability to make the journey.

Tents and provisions for only one  
day were taken along, as it is the  
intention to purchase food each  
day. The boys will make camp each  
night, and arise bright and early each  
morning in order to complete the trip  
as soon as possible.

It has been planned to reach Ports-  
mouth Thursday evening, and to  
ship their canoes and outfits back by  
express.

## 6000 HOME GUARDS

Columbus, March 25.—Ohio now  
has a home guard organization aggre-  
gating more than 6,000 men, equaling  
the strength of the Ohio national  
guard at the time of the 1917 food.  
Thirty cities have such guards or are  
forming them, Adjutant General Wood  
announced after compiling a report at  
the request of the war department.  
Cincinnati has the largest organiza-  
tion, with 2,677 men; Youngstown  
second, with 1,200 infantrymen and a  
machine gun company; Akron third,  
with 1,000, and Columbus fourth, with  
567 men. Cleveland has none. The  
question of local military defense was  
left to the various cities when the  
national guard was withdrawn last  
summer, and the policy of the state  
has been to encourage formation of  
home guards. The uniforms and  
equipment, which many of the units  
have have been purchased by local  
contribution.

### A SHORT BUT STRONG STATEMENT

Women with backache, rheumatism  
pains sore muscles, stiff joints or  
other symptoms of kidney trouble  
should read this statement from Mrs.  
S. C. Small, Clayton, N. M.: "Foley  
Kidney Pills have done me more good  
than all other medicines." They  
strengthen weak kidneys and banish  
sleep-disturbing bladder ailments.

## Jack Spurlock---Prodigal

By George Horace Lorimer from the Saturday Evening Post story of the same name.  
His latest starring vehicle is the best this famous star has ever done.

Jack is a Harvard student. He brings a large  
black trained bear to the University one night. The  
next morning the bear gets loose and swats a pro-  
fessor in the jaw. Five minutes later Jack is no  
longer a student at Harvard and is in bad stand-  
ing with his father who owns a chain of depart-  
ment stores. Father sends Jack to a lowly job in  
one of his stores. Geo. buys so many carloads of

onions that the employees all quit with tears in  
their eyes. Jack works in a "silent" restaurant un-  
til he meets Col. Jackson, a patent medicine man.  
The colonel gets a big order. He lacks ingredients.  
He tells George the necessary requirements are on-  
ions. Jack's father makes a fortune and takes Jack  
to his heart again. Jack also wins an heiress  
through his big sale of onions. The trained bear  
is a riot of fun.

## AMERICAN SECTOR FAR FROM BATTLE

The American sectors on the western front are  
over 200 miles from the scene of the great conflict  
north of St. Quentin.

The big drive has resulted in no noticeable in-  
crease in the activity against the American sector,  
nor are increased activities expected on the Am-  
erican sector at the present time, only as the Am-  
erican troops take the initiative.

So far as known there are no regular units of  
American troops near the point of the German  
offensive, unless they be engineers and Red Cross  
units.

## NOW COMMANDING FOUR COMPANIES

Letters received in this city  
Saturday from Capt. O. E. Hard-  
way states that at the time the  
letters were written he was in  
command of four companies—K,  
L, and M, and a machine gun  
company.

It is supposed that he was  
placed in charge of the four  
companies probably while the  
captains of Companies L, and M  
were either at officers' training  
school or away on "permission"  
—or nine days of rest at some  
point far removed from the bat-  
tlefield.

It is supposed that Fayette  
county troops are now enjoying  
a rest in southern France after  
having spent their first period in  
the trenches.

## REAL CAUSE OF RHEUMATISM IS STILL UNKNOWN

But, Whatever Cause Is, Radium  
Is Known to be an Effective  
Curative Agency and Folks Are  
Advised to Try It.

Whether or not it is uric acid or  
some other impurity in the blood that  
causes rheumatism is still a question.  
But, whether it is uric acid or some  
other impurity, radium is an effec-  
tive curative agency for rheumatism.  
It is generally believed that rheu-  
matism is caused by uric acid or some  
other impurity in the blood. These  
impurities travel about the circula-

tory system of the blood and are li-  
able to settle in any one or in several  
points causing the aches and pains of  
rheumatism to come in these points.  
It is declared that if the blood is  
free of all impurities—uric acid and  
all other impurities, too—rheumatism  
will gradually leave.

Radium purifies, cleanses and en-  
riches the blood. It drives out uric  
acid and it drives out other impuri-  
ties also, so that no matter what  
really causes rheumatism, radium is  
effective as a curative agency.

Tanlac Rheumatism Treatment,  
which is now being introduced con-  
tains radium and that is why its mak-  
ers have such confidence in it for the  
treatment of rheumatism.

Tanlac Rheumatism Treatment con-  
sists of a tablet for internal use and  
a special medicament for external ap-  
plication. Each of the tablets for in-  
ternal use produces four machine units  
of genuine radium emanation.

Try a real medicine for rheuma-  
tism; Try radium! You can get Tan-  
lac Rheumatism Treatment at any  
good drug store where you get Tan-  
lac, the famous tonic. Advt.

FOUND SOMETHING?—"WANT ADS FIND OWNERS."

SOLDIERS' LETTERS

Somewhere in France,  
February 27, 1918.

Dear Mother and Sisters:

This leaves me all O. K., and sincerely hope it finds you the same. It has been some time since I received mail but am expecting some every day.

The weather here for the past week has been rather disagreeable; it has been cloudy and a little rain once in a while which makes it cold and chilly.

Today has been a nice day, the sun has shone all day, the first time for a couple of weeks.

How is everybody around there? Has John Louden been called to camp yet? Tell him he should be over here with us.

I sure have seen some country since we left the good old U. S. A. The town we are in has several French soldiers in it. I am in the Y. M. C. A. writing this letter with a lot of my French brothers around me. Very few of them can speak English; once in a while you find one that can and we sure enjoy hearing them tell their experiences.

This is the first time I have written for some time, but hope to do better in the future. I will close for this time.

Sincerely your son,  
SHERMAN HIDDY,  
Co. M., 160th U. S. Infantry, A. E. F.

VINOL MAKES CHILDREN STRONG

And Invigorates Old People

Any doctor will tell you that the ingredients of Vinol as printed below contain the elements needed to improve the health of delicate children and restore strength to old people.

By Cod Liver and Beef Peptones, Iron and Manganese Peptones, Iron and Ammonium Citrate, Lime and Soda Glycophosphates, Casein.

Those who have puny, ailing or run-down children or aged parents may prove this at our expense.

Besides the good it does children and the aged there is nothing like Vinol to restore strength and vitality to weak, nervous women and overworked, run-down men.

Try it. If you are not entirely satisfied, we will return your money without question; that proves our fairness and your protection. Millions of people have been convinced this way.

DICK BURGE IS DEAD

Dick Burge, former lightweight champion of England, is dead at his home in London. Burge was born December 19, 1865, at Chatham, England. He was considered the greatest lightweight in the world until Kid Lavigne visited England in 1896 and knocked out the English idol in the seventeenth round. Burge's last appearance in the ring was in 1914, when he boxed an exhibition with Jack McAuliffe, in England. He served a term in prison for slugging a man, and when released retired from the ring. He later became one of the leading boxing promoters in England. He staged the international match between Gunboat Smith and Georges Carpentier in London in 1914.

DEEP INTEREST IN GREAT BATTLE

Probably no event since the beginning of the world war has aroused the interest that has been manifested in the great events taking place in Europe at the present time.

Not only has the great German offensive and the shelling of Paris aroused the interest of everyone, but has brought most citizens to a realization of the very grave situation confronting the nation and aroused their fighting spirit as nothing else has done.

The news of the long range gun shelling Paris was at first believed utterly impossible, as the feat surpassed all comprehension. The fact that there is such a gun once more, with startling certainty, brings out the marvelous developments occurring daily in the great war.

Perhaps the most pronounced result of Saturday's agonizing news was the intensity of feeling aroused among citizens to endure no unparliamentary act or language from pro-German residents.

CITY BUILDING IS READY FOR USE

The new city building is practically completed, and would have been occupied by the officers of the city, but the administration has been swamped by local business and it will probably be ten days before the removal into the new building takes place.

As previously announced the Mayor's office and city lockup will occupy the ground floor and the Council Chambers the second floor.

The interior of the building has undergone radical changes.

OHIO MEN ARE HELD PRISONERS BY TEUTONS

Washington, March 25.—An official list of 200 Americans now prisoners in German camps, made public by the state department, records the death of Charles Hemphill, shot while attempting to escape in September, 1917, and the death of Andrew Campbell Murtry, an aviator, brought down near Parnay, Sept. 30, 1917. The list, reported by the royal Prussian war ministry and transmitted by the German government to the state department through the Spanish embassy in Berlin and the Spanish legation at Bern, contains the names of American troops captured in trench raids, crews of captured ships and survivors of captured ships. The list also includes the names of American engineers caught in the German turning movement at Cambrai. Two Ohio boys are among the prisoners. Samuel McCulley of Decatur, and S. Middleton, Toledo.
